Storage Space at [REDACTED]

- REFERENCES: (a) Secret memorandum from Assistant Director for Communications to Chief of Logistics, subject as above, dated 5 February 1954
- (b) Secret memorandum from Chief of Logistics to Assistant Director for Communications, subject as above, dated 9 March 1954

25X1A6a

25X1A1d

1. The available space suitable for the storage of Communications material at [REDACTED] can be located in the warehouse portion of the Office and Warehouse Building, identified by [REDACTED]. It is estimated that \$10,000 will be required to make necessary building modifications and \$20,000 to cover cost of humidity control equipment. The building modifications and equipment will provide for 3% maximum humidity and temperature control, for 50,000 cubic feet of storage space, as required.

2. If the facility and estimated cost as mentioned above meet with your approval, this Office will present your requirement to the FE Division, with a request that funds be made available for this purpose.
